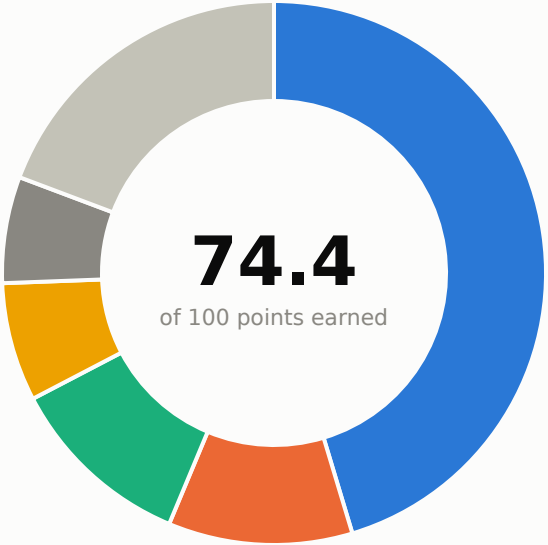
Where the 100 points of the score go

kv4i1404_g00581_29ea3c73 · W_ERGOLIGHT_v2 = 100 · E · W · base = 74.4 earned



Structural safety 16 load-case margins	**45.3**
Mass mass credit s = 0.396	**11.0**
Cutting geometry point, edge angle, serration	**11.0**
Build and form AM drainage, form	**7.1**
Lost to the multipliers E = 0.922 (hand: contact pressure e = 0.897) · W = 1.000	**6.3**
Unmet credit base = 0.807: terms short of full credit	**19.3**

Earned = Σ term points; lost to the multipliers = 100 · base · (1 − E · W); unmet credit = 100 · (1 − base). The three sum to 100.
