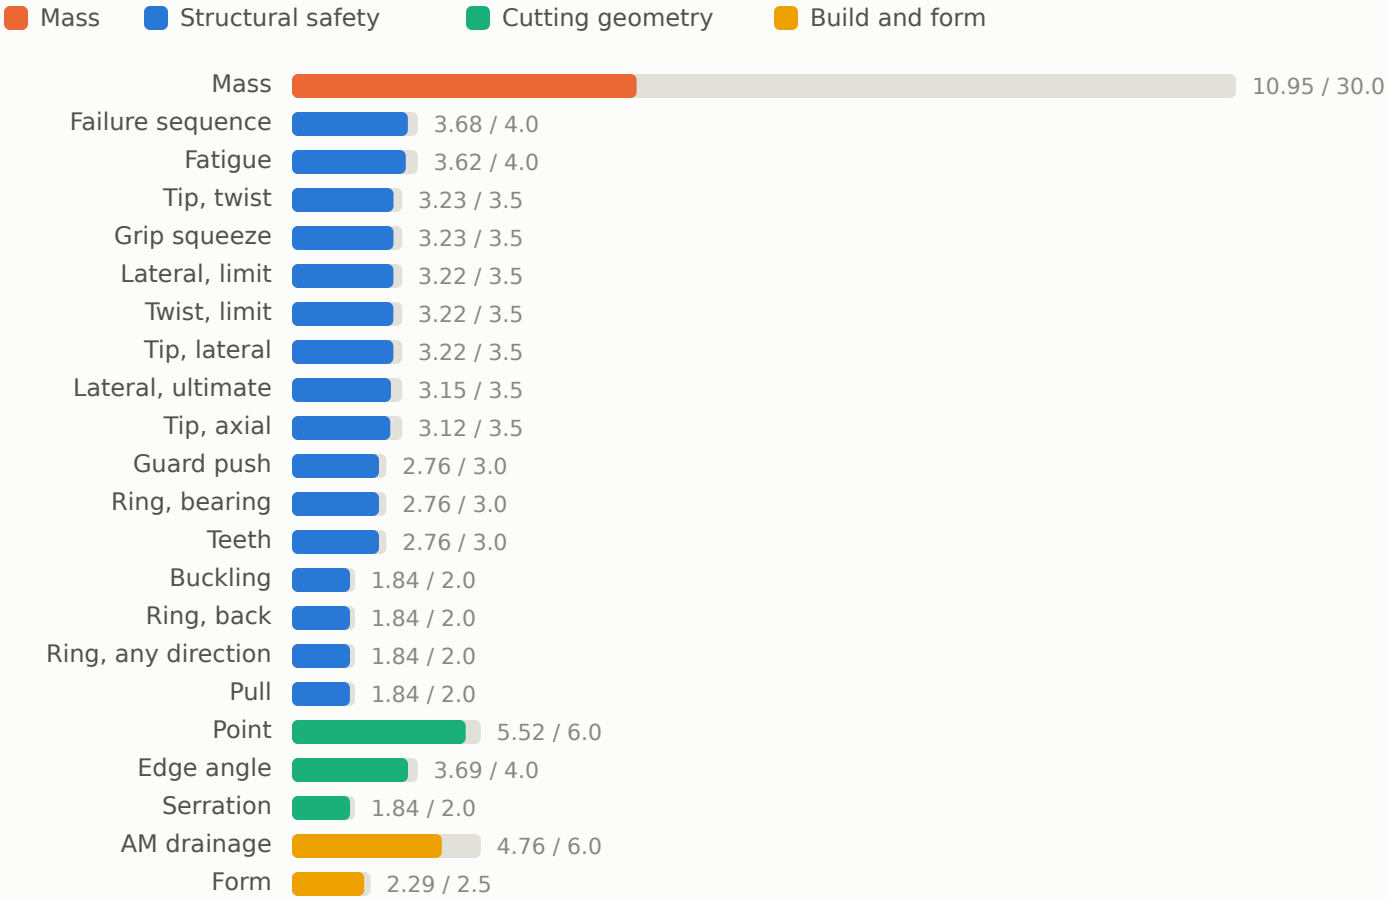
Points per score term: earned (bar) and the most it could earn (track)

kv4i1404_g00581_29ea3c73 · earned = 100 · E · W · weight · s; the track is 100 · weight (full credit, E = W = 1)



Each bar falls short of its track by the multipliers (E = 0.922, W = 1.000) and by its own credit s. The bars sum to the score, 74.4.
